Simple Mounting Mechanism

PRC Patent Number: [201611185915X](#)

SKY PROJECTOR ML12

This Projector is characterized by a special ceiling mounting mechanism that allows it to be easily mounted onto the ceiling and remain inconspicuous. The size is compatible with 150mm diameter downlight. The mechanism thus allows easy setup and control. Display contents can be refreshed by loading into the memory of the projector. A content management App is pre-installed thus allowing contents to be remotely downloaded via the built-in WiFi. Due to the design, the projector itself remain inconspicuous and blends well with the ambient. This is especially suited for retail store display, signage and advertisement applications.
