- 4K Video Compatible

This Interactive Super Bright DLP Android Smart Projector features a 2.0 GHz processor operating Android 4.4 OS with WiFi and Bluetooth connectivity. It is equipped with advance Interactive Whiteboard capability that works with the internal Android OS or with external PC. Powered by the latest LED projection technology, it delivers clear, sharp, bright, dazzling color quality images with an operating life of over 30,000 hours. It is the ideal companion for traveling executives as well as teachers and professors.

The built-in Android OS allows playback of video, photo or access documents such as PDF, Microsoft Word, Excel, Powerpoint files directly through the projector's operating system. Apps can be downloaded and installed to expand the function of the projector.

There are two HDMI inputs for connection to computers, Blue-ray disk players, game console and more. The microphone input, together with an external USB Camera, permits video conferencing calls via Skype or WeChat. There are two internal speakers as well as SPDIF output for external speakers. Using DLNA or Wireless Connection Apps, Smartphones or tablets can connect wirelessly to the projector.
